ISLANDS2026.com

A warm and kind invitation to attend the ISLANDS 2026 congress in Berlin 8/9 May 2026!

We are proud to host the 2026 ISLANDS meeting in Berlin, Friday 8 May (pre-congress course) and Saturday 9 May (scientific congress and congress evening event).

We will provide an exciting program in the vibrant city of Berlin, Germany.

On **Friday**, there will be a guided tour in the Department of Obstetrics, Campus Mitte (pictured below), between 14:00 and 15:00. Then, in the same building, there will be the practical pre-congress course on intrapartum ultrasound. This course begins at 15:30 and will contain a series of short mini-lectures in round-table format by ISLANDS faculty, followed by practical lectures with live-demos by the Charité staff. More educational material (overview and how-to lectures) will be provided online, too.

On **Saturday**, the **congress** will contain a packed scientific program. Saturday evening (20:-23:00) the the social event will take place at the stylish **Pan Am Lounge**.

Submissions: Only unpublished data or recently published studies (publications during the 24 months preceding the congress) or study proposals will be considered for live presentation. Proposals must be submitted online via the congress website **ISLANDS2026.com** (see QR code) . Each participant may present only one lecture live. Submission of further lectures is possible, but such lectures must be submitted as video recordings (max. 10 minutes each) and, if accepted, will be available to registered participants for eight weeks after the event.

The deadline for abstract submissions has been extended to **10 April 2026**.

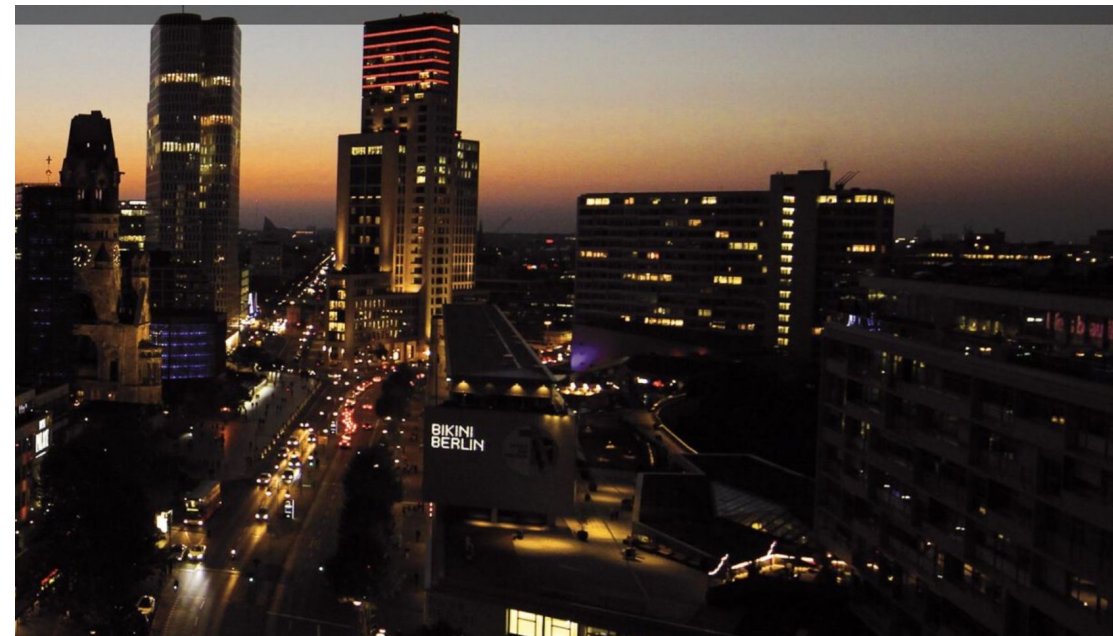

Congress and course content will be in-person events, not online. Some content will be available online after the congress for viewing by registered participants only.

Please see all information including the congress video on the course website **ISLANDS2026.com** or via the QR code.

We look forward to seeing you in Berlin May 2026!

*Wolfgang Henrich, Larry Hinkson, Boris Tutschek
(local organizing committee) and the Charité staff*
